The Codification Of Medical Morality
Clay tablets from the library of Assurbanipal (668–627 BCE) revealed that disease interpretations in this society were largely omen-based, using divination based on inspection of the livers of sacrificed animals. 3 This reflected the division of medical practice among three types of healers: seers, priests and physicians. The seers performed the divinations, the priests conducted ...

Medical Ethics: Past, Present and Future
The similarities among religious belief, law, morals and ethics start from their common role in attempting to make people behave in certain ways. They generally offer formal guidance to people in ...

What are the similarities between religious belief, law ...
Law is a system of rules that are created and enforced through social or governmental institutions to regulate behavior. It has been defined both as "the Science of Justice" and "the Art of Justice". Law is a system that regulates and ensures that individuals or a community adhere to the will of the state.

The history of slavery spans many cultures, nationalities, and religions from ancient times to the present day. However the social, economic, and legal positions of slaves have differed vastly in different systems of slavery in different times and places. Slavery occurs relatively rarely among hunter-gatherer populations because it develops under conditions of social stratification.
